i-on10 Wired Kit

Entry level wired intruder alarm panel

The i-on10 is a 10 zone, bells-only (audible alarm) wired intruder alarm panel. It is suitable for simple, entry-level burglar alarm systems to protect homes and small commercial installations. Successor to the popular Scantronic 9651 series panel, it has the benefit of two additional zones and simplified keypad options over its predecessor. It is simple to operate and contains basic features such as enabling the system to be set and unset with codes or proximity tags. The panel is simple to program - sharing the same features as our i-on range - and flexible, supporting up to ten users and four keypads.
