IPS 10.1 inch Screen

Resolution 1280*800

Capacitive touch screen

Display

Support HDMI 4K@30fps

Decoding capability

1. Support h264/h265
2. Max Support h264 1x1080p@60fps
3. Max Support h264 4x720p@30fps
4. Max Support h265 1x4k@30fps

Protocol

Support Onvif2.4, Support OEM

Function

1. Supports up to 1024 devices to add
2. Support PTZ Control
3. Support Preset
4. Support Patrol
5. Support Pattern

System settings

6. Support language settings
7. Support password modification
8. Support U disk upgrade

Power

Standard 5.5/2.1 Power interface,
DC 12V2A±10%

Interfaces

One RJ45 (Network)

One RS232

One USB2.0

One Phoenix Port (RS485)

One HDMI Output, Version 1.4

A standard 3.5MM headphone jack

Support 4D Joystick, Support button

Operation interface

Power consumption

<15W:

Standby current

<100mA

Mean time between failures

>30000

Working humidity

10%-90%RH()

Working temperature

-10°C-40°C

Storage temperature

-40°C-60°C

Packing size

390*240*130mm

Outer box size

680*396*246mm / 5 sets

Weight

1580 G /set

Introducing the new generation Android system network touch keyboard, independently designed and developed by SERAGE. It features a built-in 10.1-inch capacitive touch screen and boasts a simple and user-friendly UI design.

When the keyboard's touch screen is activated, real-time previews can be seamlessly achieved. The images are then transmitted to an external display via the HDMI interface. The keyboard supports a range of video formats, including H.265 1 CH 4K@30fps, H.264 1 CH 1080P@60fps, and 4 CH 720P@30fps decoding.

To enhance control and streamline targeting, the keyboard is equipped with a 4D joystick, enabling precise PTZ control and rapid target positioning.
