

Ten Way Charger for QT412 Range Transmitters

Part No. **QT424/10**

Overview

- A ten-way plugtop charger designed for use with Quantec's QT412 range of IR/RF transmitters.
- Can simultaneously charge up to ten transmitters.
- Connects to a standard 13A mains socket using the standard IEC lead supplied
- Can be wall or desk mounted to suit the transmitter storage/charging requirements of a particular site.
- Fully recharged transmitters can be left connected to the charger with no detrimental effect.
- 14 hour typical charging time (full cycle).
- Indicators confirm when charging is complete.
- 10-way version also available (order code QT424/10).

Technical Specifications

Compatibility	QT412RXA and QT412RXCA IR/RF transmitters.
Power requirements	230V ac.
Current rating	110mA ac (Charge current per transmitter).
Output	6.5V ac.
Indicators	Supply present LED; 10 x red charging LEDs (lit constant when charging, intermittently when charge cycle complete); Output Fault LED (lit yellow when there is an issue with one of the outputs)
Product dimensions (mm)	155 W x 95 H x 63 D mm (includes mounting wings).
Weight	1.29K
Operating conditions/temperature	Indoor use only.
Kit contents	Includes 10 charging leads.
