Proactive Deterrent, Crime Prevention

24/7 Protection

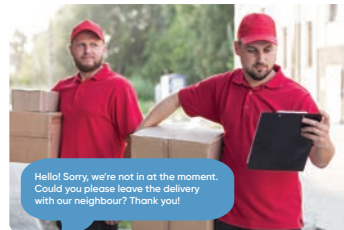

24/7 Active Siren-Visual Alarm Defense System

Protect you with a loud siren or 3 different strobe lights that can be triggered automatically when activity occurs or manually via the app. It can scare intruders away, preventing crime before it happens.

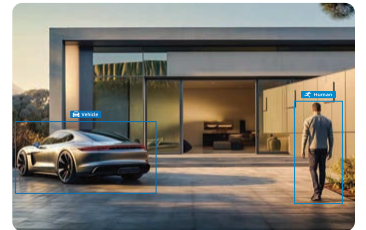

Ultra Clear Viewing and Colour Night Vision

With an F1.0 super aperture lens, a high-sensitivity sensor, and a built-in warm supplemental spotlight, the camera can capture every colourful detail in complete darkness.

Two-Way Audio For Instant Communication

Speak directly through the camera anytime. Ask delivery drivers to leave packages with your neighbour or deter intruders by warning them the police are on their way. Stay in control wherever you are.

AI 24/7 AI Detection, More Accuracy

The built-in intelligence for smart detection of people and vehicles filters out unwanted alerts, such as those triggered by animals, bugs, and leaves. This saves your time and energy compared to general motion detection. You'll only get accurate alerts for what matters most and can see what's happening 24/7.

4MP Video Resolution

With a F1.0 super aperture lens, and a built-in warm supplemental spotlight, the camera can capture every colourful detail in complete darkness.

AI Detection, More Accuracy!
The built-in intelligence for smart detection of people and vehicles filters out unwanted alerts, such as those triggered by animals, bugs, and leaves.

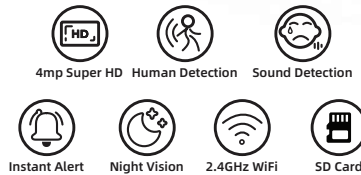

24/7 Active Siren, Visual Alarm & Two-Way Audio
Protect yourself with a loud siren or strobe lights that activate automatically upon detecting activity. Communicate directly with visitors or potential intruders using two-way audio for added security.

4MP CUBE CAMERA

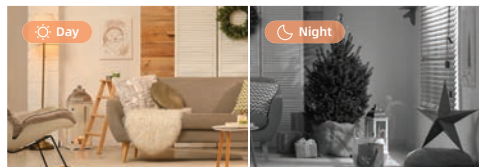

RVIPCAM

INDOOR

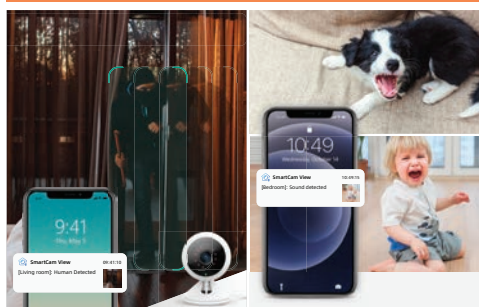

4MP Video Resolution

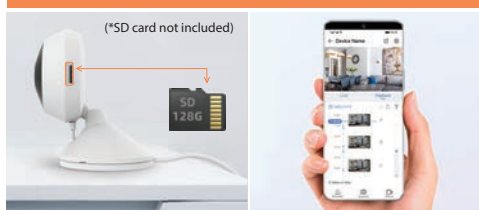

View images and videos with delicate details in 2K/4MP super HD day and night.

Human Detection & Smart Sound Alerts
Get instant alerts for human activity or unusual sounds like a dog barking, sent straight to your phone so you're always informed.

Secure Local Storage & Remote Playback
Store videos locally with a micro SD card (up to 128GB, not included) and access playback anytime, anywhere from your smartphone.

4MP PT CAMERA

RVIPC1DOME

INDOOR

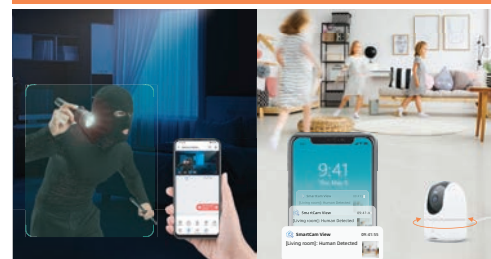

4MP Video Resolution One-Click 360° Panorama

Easily rotate and view the camera by taping any part of the panorama picture via App.

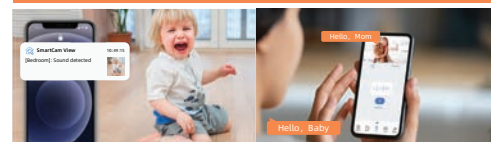

Effortless Pan & Tilt Control
Easily control your camera via the app on your smartphone. Enjoy full 0° to 355° horizontal and -25° to 75° vertical coverage to see every corner.

Instant human detection with alerts and notifications. Auto-tracks and records motion with siren, spotlight, and colour or infrared night vision for 24/7 security.

Two-Way Audio & Smart Sound Alerts
Talk and listen directly through your camera to stay connected from anywhere. Smart sound detection instantly alerts your phone to unusual sounds, like a baby crying or loud noise, so you're always informed and in control.
